Disciplinary Action

Alliance Services has established workplace standards of performance and conduct as a means of maintaining a productive and cohesive working environment. A positive and progressive approach is taken to solve discipline problems which appeal to an employee's self-respect, rather than create the fear of losing a job. Our system emphasizes correction of the offensive behavior. If correction of the problem and sustained improvement does not occur, termination will likely result.

Disciplinary actions will be administered in the following order: first infraction will result in a verbal warning; second infraction results in a written warning with the express communication that any further infractions may result in termination; third infraction will likely result in termination. As an example, the following types of infractions will result in the above escalating disciplinary action:

- Disregard for established policies and procedures.
- Excessive cancellations or tardiness.
- Discourtesy to clients or fellow employees.

The following are grounds for immediate termination:

- Accepting an assignment and not reporting to work or not notifying us.
- Unauthorized possession, use, or removal of property belonging to Alliance Services or any client of Alliance Services.
- Failure to comply with all safety rules and regulations, including the failure to wear safety equipment when instructed.
- Reporting to work under the influence of alcohol, illegal drugs, or in possession of either item on company premises or work sites of client companies.
- Lewd, unacceptable behavior, possession of weapons or explosives and provoking, instigating or participating in a fight is prohibited at Alliance Services and/or at its client facilities.
- Violation of the harassment policy.
- Insubordination of any kind is grounds for immediate termination. (For example, refusal to carry out your supervisor's reasonable works request).
- Leaving an assignment without notice (i.e. patient or assignment abandonment).
- Falsifying records including, but not limited to, time records or claims pertaining to injuries occurring on company premises or work sites of client companies or personnel records.
- Disclosing confidential information without authorization.

Substance Abuse

Alliance Services believes that maintaining a workplace that is free from the effects of drug and alcohol abuse is the responsibility of all persons involved in our business, including Alliance Services employees and clients.

The use, possession, sale or transfer of illegal drugs or alcohol on company property, in company vehicles, or while engaged in company activity is strictly forbidden. Also, being under the influence of drugs or alcohol, while on company property, in company vehicles, or while engaged in company activities is strictly forbidden. A violation of this policy will result in disciplinary action up to and including termination. Depending upon the circumstances, other actions, including notification of appropriate law enforcement agencies or licensing boards, may be taken against any violator of this policy. In accordance with the Drug-Free Work-Place Act of 1989, as a condition of employment, Healthcare Professionals must comply with this policy and notify management within five (5) days of conviction for any use of, or distribution of a controlled substance. Failure to do so will result in immediate termination of employment pending the outcome of any legal investigation and conviction.

For the protection of our employees, the public and to insure an environment free from the influence of illegal drugs as is reasonably and practically possible, the company requires a pre-employment drug screen, and reserves the option to conduct a “for cause” or random drug screen for the presence of illegal drugs under certain conditions. Consent to the testing program will be a condition of further employment of each and every employee. If any director, manager, supervisor or other company officer or client representative has any suspicion that an employee under his or her supervision may be affected by or under the influence of illegal drugs, the employee under suspicion will be asked to undergo a laboratory test to determine the presence of illegal drugs. Refusal to take the test will subject the employee to immediate termination. Additionally, consistent with the law, drug and alcohol screening tests will be given after accidents or near misses, or upon reasonable suspicion of alcohol or drug use, when a client requires pre-assignment testing, or upon any other circumstances which warrant a test.

Sexual and Other Unlawful Harassment

Sexual Harassment is defined as unwanted sexual advances, or visual, verbal, or physical conduct of a sexual nature. This definition includes many forms of offensive behavior and includes gender-based harassment of a person of the same sex as the harasser. The following is a partial list of sexual harassment examples.

- Verbal abuse of a sexual nature, graphic verbal commentaries about an individual's body, sexually degrading words used to describe an individual, or suggestive or obscene letters, notes, e-mails or invitations.
- Physical conduct that includes touching, assaulting or impeding or blocking movements.

Unwelcome sexual advances (either verbal or physical), requests for sexual favors, and other verbal or physical conduct of a sexual nature constitute sexual harassment when:

- Submission to such conduct is made either explicitly or implicitly as term or condition of employment.
- Submission or rejection of the conduct is used as a basis for making employment decisions.
- The conduct has the purpose or effect of interfering with work performance or creating an intimidating, hostile, or offensive work environment.

Actions, words, jokes, or comments based on an individual's sex, race, color, national origin, age, religion, disability, sexual orientation, or any other legally protected characteristic will not be tolerated.

Upon experiencing or witnessing sexual or other unlawful harassment in the workplace, report it immediately to your supervisor. If the supervisor is unavailable or you believe it would be inappropriate to contact that person, you should immediately contact the Alliance Services Corporate Office. You can raise concerns and make reports without fear of reprisal or retaliation.

All allegations of sexual harassment will be quickly and discreetly investigated. To the greatest extent possible, the alleged victim's confidentiality, that of any witnesses, and the alleged harasser will be protected against unnecessary disclosure. When the investigation is completed, the alleged victim will be informed of the outcome of the investigation.

Any supervisor or manager who becomes aware of possible sexual or other unlawful harassment must immediately advise any member of management so the allegation can be investigated in a timely and confidential manner. Anyone engaging in sexual or other unlawful harassment will be subject to disciplinary action, up to and including termination of employment.

Clinical Incidents & Sentinel Events

Clinical staff must recognize the importance of following effective procedures and are encouraged to speak up if something has been compromised or might compromise patient safety and quality.

A Clinical Incident is any event or series of events that resulted in or had the potential to result in an adverse patient outcome. Examples of a clinical incident include but are not limited to omission of treatment, deviation from policy, medication errors, improper equipment usage, IV of Blood complications, patient fall, inaccurate clinical assessment, patient or physician complaint. Clinical staff should notify Alliance Services of any clinical incidents that occur while on assignment, regardless of an adverse outcome.

A sentinel event is an unexpected occurrence involving serious physical or psychological injury or death or the risk thereof. These events must be reported to the Clinical Director within 24 hours of the occurrence. The healthcare facility will conduct a Root Cause Analysis for all sentinel events, to identify the causes of the error. The Clinical Director will work closely with any staff involved in an error, including supporting them through the difficult time, facilitate communication between the clinical staff and the customer about the event, and based on the root cause analysis, plan for improvement activities.

In the event of deviation of practice according to the professional practice act, fraudulent behaviors, narcotic abuse or deviation and/or other aberrant or illegal behavior, each event is documented and a report is made, which includes information from the customer. The Clinical Director reports each situation according to the guidelines of the appropriate professional association or licensing board.

It is our philosophy that if an employee is injured while at work, it is our intent to assist that employee to return to work as soon as possible. The form should be returned as soon as possible after the incident to Alliance Services by faxing to 262-677-3822 or emailing to staff@asi-wi.com.

 - Direct deposit requires all employees to maintain a bank account. This is a condition of employment and should be proven upon hire.

- Any changes to employee direct deposit, taxing information, or banking should be submitted in documentation to the office via fax or email. Changes may take effect on the subsequent pay period, depending upon time of submittal to Alliance Services.
- Alliance Services may cancel direct deposit for an employee and hold your paycheck at the office only if:
 - You have been terminated by Alliance Services or voluntarily resigned and have failed to return your facility badge and keys. Employee understands that facility security is a priority and a failure to return these items is a risk to its patients and staff.
